TEKLABZ
Trust In Growth

Reimagining Telecom Networks with
GIS Intelligence

Smart networks start with smart data. Teklabz brings telecom infrastructure to life through Esri-powered GIS solutions

Since 2009, Teklabz has helped telecom providers optimize and modernize their networks with GIS-powered services.
From design and automation to analytics and asset management, we deliver scalable digital solutions tailored to real business challenges.

GIS-Powered Telecom Solutions. Built for Now. Ready for the Future.

PAIN POINTS

Disconnected systems and data silos

Manual processes that delay deployment

Outdated tools slowing field teams

Limited visibility into network performance

TEKLABZ
Trust In Growth

SOLUTIONS

Unified data with real-time GIS visualization

Automated planning and design workflows

Mobile-enabled data collection and validation

Actionable analytics through interactive dashboards

"We don't just implement GIS, we build end-to-end digital experiences"

Our Services.
Your Network, Optimized.

Telco Network Manager
A web-based digital twin of your network powered by Esri ArcGIS Utility Network

Client-Centric Digital Solutions
Custom-built apps and automation tools, with seamless GIS integration across third-party systems.

Network Data Conversion & Migration Solutions
Seamlessly move your legacy data into Esri Utility Networks with full validation and cleansing.

Field Data Collection & Verification Services
Capture field intelligence in real time with mobile GIS and validate it against network designs.

Network Planning And Design Service
Plan smarter. We use simulation, modeling, and automation tools to design scalable, high-performance networks.

Advanced Data Analytics & Insights
Visualize everything. From network usage to capacity forecasting, we turn your data into insight

Digital Enablement & Support Programs
Technology is only as powerful as the people who use it. Teklabz ensures your teams are equipped,

WHY TEKLABZ?

Telecom-Focused
100% specialized in GIS for telecom networks.

End-to-End Services
From design to training we cover it all.

Real-World Impact
We reduce errors, cut costs, and speed up delivery.

Agile & Scalable
Regional team, enterprise-grade capabilities.

Custom-Built Solutions
Tailored apps and tools for your exact needs.

Utility Network Experts
Fully equipped for Esri Utility Network deployments.

"We scale as you grow"
